

New Programs Launching at Coahoma Community College Workforce Development Center

## New Programs Enrolling Now

### **CODING**

Join our comprehensive eleven-month program designed to equip you with essential skills for success in the ever-evolving tech landscape. Throughout the program, you'll benefit from:

- Expert-led instruction
- Practical projects
- Personalized feedback
- Career readiness
- Networking opportunities

At the conclusion of the program, you'll emerge with a solid foundation in programming languages, practical experience, and the confidence to thrive in today's fast-paced tech industry.

### **DIESEL MAINTENANCE TECHNOLOGY**

Join our Diesel Maintenance Technology pathway at Coahoma Community College and embark on a journey to gain the essential skills for maintaining and repairing a wide range of industrial diesel equipment. Our program equips you with the competencies needed to excel in this thriving industry.

#### **Program Highlights:**

- Learn to inspect, repair, and maintain engines, power trains, hydraulic systems, and other vital components.
- Acquire expertise in diagnosing and repairing medium and heavy-duty equipment engines, suspension and steering systems, brake systems, and electrical/electronic systems.
- Master the art of performing preventative maintenance and inspections on medium and heavy-duty equipment.

Upon successful completion of the Diesel Maintenance Technology Short-Term Technical Certificate, you will be ready to enter the workforce as a skilled professional, fully equipped to tackle the challenges of this dynamic field.

Both modularized pathways are 11 months in length and are tentatively scheduled to start Wednesday, February 28th.
